Name : Chen Kuhon (34474285)

Task 1

Title : From the Wild to Our Homes

Subtitle : The birds we keep, the lives they lead, and the care they need.

Goal: Investigate popular companion birds such as budgerigars, cockatiels, parrots and canaries. Compare species characteristics, lifespans, intelligence, care requirements or popularity. Explore the diversity of birds kept as pets across Australia households.

Target Audience: Members of the general public, particularly people interested in companion birds, Australian wildlife, and those considering keeping a bird as a pet.
